

IAHTM members can count on Standard Textile for innovative, customizable solutions.
We appreciate the business and relationships we have with IAHTM members.

CUSTOMIZED FOR YOUR NEEDS. OPTIMIZED FOR EFFICIENCY.

Hospitals have realized significant savings using our SurgiTex™ system. You can, too.

Our team of experts will analyze every aspect of the surgical pack processing to help you increase your revenue, whether delivering sterile or non-sterile packs.

| 2. Hospital Staff Training | 4. Clinical Support |

Phase 03: Quality Monitoring Program (QMP)

- | | |
|-----------------------------|-------------------------------|
| 1. Quarterly Review | 4. Cost Reduction Suggestions |
| 2. Written Report | 5. Quality Improvement Ideas |
| 3. Quantitative Conclusions | |

DermaTherapy®

From envelope-designed, knitted fitted sheets, to pre-laundered products, to 100% polyester items, to FDA cleared linens that help reduce the likelihood of pressure ulcers.

DermaTherapy® therapeutic linens optimize the patient's microclimate by reducing friction and shear, and managing moisture and heat between the patient's skin and the support surface.

For a sample of our brand-new products, contact us at
1.800.999.0400 or reach out to Cecil Lee (clee@standardtextile.com).
